DARE TO DANCE · DARE TO DREAM

*"If you can walk you can dance, if you can talk, you can sing" (a saying from Zimbabwe).*

Singing and dancing open your heart, free your body and empower your soul. DanSing can help you find deep joy, surprising wisdom and a deep sense of connection with all of life.

You do not have to be a confident singer or dancer. Whether you have already discovered it or not, as a human being, you are both a dancer and a singer. Waking up your body and your voice through DanSing is a direct route to awakening your creative energy and the power of communication. This work is grounded in Movement Medicine, and Susannah's unique way of integrating voice and movement, dance and song. DanSing includes free movement and vocal improvisation, as well as beautiful harmony songs from

around the world. This work integrates her devotional, shamanic, musical and therapeutic studies.

**Pre-requisites:** Preferably a Move! evening or experience in related practice.

**Movement Medicine** is the synthesis of Susannah and Ya'Acov Darling Khan's work over the last 25 years.

Susannah teaches with warmth, compassion, wisdom and humour. She offers a joyous approach to personal and collective healing. For more information see the book: *'Movement Medicine'* available at [movementmedicineshop.com](http://movementmedicineshop.com)

*"Susannah is a master choreographer of energy and a specialist in heart art."* David Rose, Director of Soul Wave
